RE: Authorization to use
Facility ID # 60101
Marshall Ridge Farms, LLC Site
Marshall County

Dear Mr. Blood:

We have received your engineer's construction certification statements regarding the construction of the three new anaerobic digester tanks and foundations, the below building deep concrete mixing pits and miscellaneous equipment, pumps, piping and controls for the digester system, as required under Construction Permit CP-A2015-029 (North Dairy) issued on April 17, 2015 and Construction Permit CP-A2020-019 (South Dairy) issued on April 14, 2020 and amended on May 17, 2021. The certifications indicate that the digester tanks, foundations and deep pits were:

- Constructed in accordance with the approved design plans;
- Supervised by the engineer or his designee during critical points of construction;
- Inspected by a licensed engineer after completion of construction and before operation;
- Constructed in accordance with the drainage tile removal standards of 567 IAC 65.15(1);and
- All tests conducted on tanks, piping and equipment were successful and in accordance with manufacturers recommendations.

You are hereby authorized to begin use of the three digester tanks, below building concrete pits, equipment, pumps and piping.

Final grading and earthwork for the emergency containment area shall be completed as soon as possible when weather allows.

Please be reminded that you selected, and the County passed, several master matrix items which were included in your permit as provisions. You are required to adhere to those provisions as listed in your construction permit. In particular Matrix Item #15, landscaping around your structure. This should be completed within the next year in accordance with your approved landscaping plan.

Sincerely,

FIELD SERVICES AND COMPLIANCE BUREAU

PAUL PETITTI, P.E.
ENVIRONMENTAL ENGINEER SENIOR
